EFLM LESSONS IN IMMUNOCHEMISTRY

A series of 8 live webinars of 90' each
(4 in 2022 and 4 in 2023) introducing to the
principles and applications of Clinical
Immunochemistry in Laboratory Medicine.

Each lesson will see the presence of a medical
doctor presenting a specific disease and its diagnostic
challenges; then Specialists in Laboratory Medicine will present the related
immunochemistry markers for that specific disease focusing on analytical
aspects and pre/postanalytical issues.

*This is an EFLM educational activity organized by the EFLM Working Group
"Congresses and Postgraduate Education".*

REGISTRATION:

**This is an EFLM educational
activity reserved for free to
EFLM Academy Members.**

*Always at
h. 16.00 CET*

WHEN:

**11 April 2023
27 June 2023
28 September 2023
6 December 2023**

KEY LEARNING OBJECTIVES

- to be able to analyse the diagnostic challenges of the disease
- to learn about the laboratory and clinical aspects of the disease
- to gain knowledge on the diagnostic and prognostic immunochemistry markers
- to understand advantages and discrepancies of these markers in terms of preanalytical, analytical and postanalytical aspects
