

EUROPEAN FEDERATION OF CLINICAL CHEMISTRY AND LABORATORY MEDICINE

# EFLM RESEARCH GRANT

Edition 2027

**The EFLM Scientific Research Grant has been established to promote science and facilitate research in Laboratory Medicine in Europe.**

**Two grants of up to EUR 10,000 each are awarded annually: one to an applicant from a country participating in the "Vic Blaton" scholarship programme and the other to an applicant from any other European country.**

Applicants must submit a detailed study budget, including a list of all reagents and consumables required to carry out the study. Applicants are responsible for ensuring that the grant funds requested are sufficient to complete the study. If additional funding is required, a letter of support from a third party must be provided, confirming that the remaining costs will be covered by that party.

The selected applicant is responsible for publishing the study findings in an international (preferably) or national peer-reviewed journal within two years of receiving the grant.
If this requirement is not fulfilled, the grant recipient will be automatically disqualified from applying for any other EFLM award, bursary or grant for the following five years.

The grant can only be transferred to an institutional or organisational account, not to the personal bank account of the selected applicant.

The selected applicant can apply for this grant only once.

*In accordance with the EFLM Transparency Policy, applicants' names and evaluation rankings will be publicly disclosed.*

**Applications and all supporting documents must be written in English and submitted electronically to the EFLM Office: eflm@eflm.eu within 17 January 2027**

## ENTRY CRITERIA

**The applicant:**

- **must be from an EFLM Full Member National Society**
- **must be an EFLM Academy member at the time of application**

*Officers of the EFLM Executive Board are not eligible during their term of office.*

## SUBMISSION PROCEDURE

**Applications must be accompanied by:**

1. EFLM scientific research grant application form
2. Scientific and professional experience of the applicant
3. Study budget (Excel file)
4. Proof of membership in an EFLM Full Member National Society/Association
