

**EFLM is proud to inform you on the establishment of the
“EFLM TASK FORCE - GREEN LABS”
aimed to implement sustainable practices in medical laboratories**

The aim is to transform clinical laboratories into a safe and sustainable spaces by decreasing their deleterious environmental impact and implementing efficient everyday actions in laboratories, and taking steps to minimize energy, water, and hazardous chemical use, as well as waste generation without compromising the quality of healthcare. EFLM will lead the laboratory medicine community for the shift to carbon neutrality in line with the European Green Deal (EGD) Investment Plan, also known as the Sustainable Europe Investment Plan, which is aimed at making Europe the world’s first climate-neutral continent by 2050. Good collaboration among the European Union (EU) healthcare systems and a common vision for future actions would help to achieve such goals and environment-friendly laboratories.

Prof. Ana-Maria Simundic, EFLM, President
Prof. Tomris Ozben, EFLM TF-Green Labs, Chair
